## **Assumptions/Perquisites**

- We expect the customer to give his feedback as soon as the Home page for his website portal gets ready as any delay in his feedback will lead to further delays in the development of the website portal.
- The development work for customer's website portal will begin from the next working day after we receive his quotation approval.
- The content for the website has to be provided by the customer in the form of soft copy.
- We assume that the customers knows that we work 5 days a week (Monday to Friday)
- The Development work for the Website portal will start once we receive at least 50% of the agreed amount and its gets credited into Web3creations Bank account.
- The remaining 25% of the agreed amount should be credited in to Web3creations account in mid of project and rest will be before the final delivery of the project. Our Account Executive will collect Post Dated Cheque (PDC) as a proof of their approval.
- We assume that the customer understands that there can be delays during actual project implementation due to unforeseen circumstances even though our best effort to deliver the project on time.
- We will keep the customer updated on the status of the project on a weekly basis.
- Any extra feature which has not been discussed earlier will be charged extra after coming to a mutual agreement.
- We expect our customer to be cooperative which will help us serve him better.
- The maintenance of the website will done for 1 year after delivery and any maintenance after that will be charged extra.
